Dear Parents/Guardians,

On June 3, the provincial government announced its capital repair list for the coming year and I am pleased to inform you that Halifax West High School has again received funding for upgrades.

This funding will allow the Halifax Regional School Board to continue with phase two of replacing the heat pumps. The board is currently developing a schedule for when this work will occur and we will ensure those details are shared with you once they are determined.

If you have any questions about this project, I would encourage you to contact the school and speak with one of the administrators. They should be able to answer any of your questions or direct you to the appropriate contact at the board for a response.

I want to thank the provincial government for their continued investment in Halifax West.

Best wishes on the completion of a successful school year!

Regards,

Elwin LeRoux,
Superintendent
